DVD Case: 5026247171872

PRODUCT CODE

Box: VCOMSYSCOMV8-K02
DVD Case: VCOMSYSCOMV8-K01

SYSTEM REQUIREMENTS

- **CPU** - Pentium or better
- **Windows** - To install requires Windows 95/98/Me/NT/2000/XP/2003, Longhorn or DOS, but not required for use
- **RAM** - 16 MB (more is required on some operations with huge drives)
- **Free Disk Space** - 20 MB (5 MB under Windows 9x/Me)

FEATURES

The best operating system manager and full partitioning in one integrated package!

Easily add and remove operating systems – great for safe migrations to a new operating system (OS), trying out Linux, or any other OS. System Commander takes the worry out of upgrading an existing OS, by ensuring that the existing OS continues to work, even if there are issues with the new one.

Exclusive OS Wizard™

The patented OS Wizard technology makes it easier than ever to prepare a computer for new Oses. Choose the operating system to add and the OS Wizard will automatically prepare the system. For those preferring a more hands on approach, the OS Wizard's recommendations can be overridden.

Exclusive ActiveFS™

With the ActiveFS technology anyone can safely and easily install System Commander into any Windows® OS, from Longhorn/2003/XP to 95. System Commander is the only OS manager that can be installed into FAT, FAT32 or NTFS.

FREE! Includes Partition Commander® 8

With Partition Commander seamlessly integrated into System Commander, creating and resizing partitions could not be quicker or easier! The Partition Wizard™ automates partitioning tasks, guiding users through step-by-step. No other utility lets users partition a hard drive with more ease and confidence!

FREE! Safety Features

- Bootable safety CD with utilities included
- **Exclusive BackStep Wizard™** to undo partitioning, even after exiting

And much, much more!
